Ice Storm Damage Removal Update & Clarification

This Thursday, May 22, 2025, Foley's is expected to pick-up tree branches knocked down as a result of the last Ice Storm. A truck and crew will remove those downed branches piled next to *any association road within Timber Ridge*. As was communicated in the previous Ice Storm Happenings, the service is intended to assist members by picking-up and removing tree branches fallen during the ice storm. This is not a general Spring Cleanup removal of all parts of all downed/removed trees and debris.

Thank you for your cooperation.
