

Timber Ridge Spring Clean-Up

Due to the freezing rain storms that occurred this spring, Timber Ridge Property Owners Association has decided to hire Foley's Tree service to pick-up tree limbs and branches that have fallen on your property during these storms. To insure the pick-up of the tree debris, it must be placed at the roadside by 8:00 AM on May 9, 2022.

IMPORTANT REQUIREMENTS THAT MUST BE FOLLOWED TO PARTICIPATE IN THE PROGRAM:

- Make debris piles as compact as possible; if debris requires multiple stacks or piles, arrange them parallel with the roadway. No obstructions within 15 feet of where the piles are placed.
- No logs, trunks or stumps larger than 6 inches in diameter.
- No needles, leaves, grass clippings or pine cones will be picked up.
- Pick-up is limited to naturally occurring materials only (no lumber or other construction materials, no man-made or processed items).
- Debris being picked up must be from addresses within the Timber Ridge sub-division.
- Some materials may be picked up prior to May 9th, but all roadways will be covered starting on May 9th.
